

ALL INDIA ACHIEVERS FOUNDATION NEW DELHI - INDIA

All India Achievers Foundation (AIAF) is mainly involved in the study, growth and analysis of the Indian economy. The AIAF is promoting and assisting individuals and organizations in their respective fields and thereby promoting India's national economic and social development.

India is progressing at a fast pace and the economy is achieving world standards. The country is a world leader in areas such as information technology, agricultural production, Steel production, textiles and readymade garments, diamond and jewellery exports and some other fields. The Govt. of India is introducing extensive economic reforms as per international trade requirements.

The Planning Commission has selected certain areas where immediate development is required. As a result there is extensive economic activity and development taking place in the country. The AIAF is constantly examining and analyzing the economic activities taking place in the country and internationally.
